ABOUT US

Established in 1989, **SCM Garments Private Limited** is the destination of superlative apparels that are knitted with immaculate quality and strong values. Each of our brands is a natural extension of our philosophy of excellence that is created with zeal and concern to our customers who are spread over globally. As an exports arm of The Chennai Silks, we exist to create experiences where passion and purpose come together. We leverage on robust research and advanced technologies which makes us **"A Fibre to Fashion company"**.

We are part of the biggest and most efficacious company - SCM Group of Companies. We believe that quality and efficiency are a quintessential part of our very being and to measure up to our own ideals. Also, instilling a sense of ownership and pride enhances a long-term relationship with our customers. To stay true to our pride in workmanship, we've established a dominant presence in every part of the textile spectrum and our pride lies in being independent and self-sufficient in every stage of garment production. We will continue to persist with confidence and move steadfastly despite many obstacles and thereby leaving remarkable foot-prints in the history of garment industry.

Founder

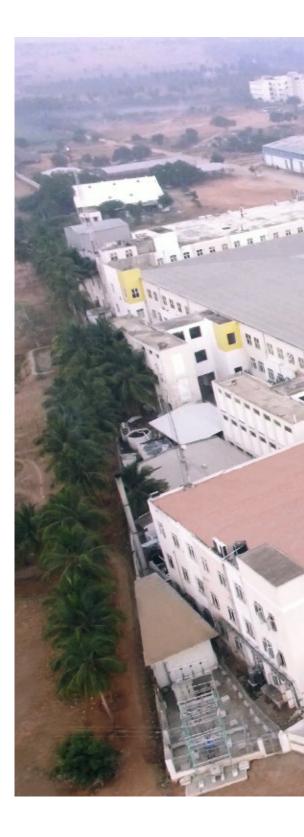

As SCM Garments Private Limited sets sights on even more ambitious goals, we remain inspired & guided by the story and philosophy of our founder **Thiru. A. Kulandaivel Mudaliar.** Hailing from modest means, he followed his dream & unique vision redefined and revolutionized a weaving enterprise into a conglomerate with diverse domains.

SCM Garments as an organization has adopted this ethos of converting adversity into opportunity and making the impossible possible by challenging conventional wisdom.

Mission & Vision

- To improve continuously and consistently providing our best service to our clients and thereby manufacturing and delivering all the products with moral uprightness.
- To meet the ever-evolving customer needs & wants through our planet-friendly operations throughout the garment production.
- To pioneer in the garment industry and we ensure that the next wave of growth remains innovation-led.

SCM GROUP

SCM Spinning Mills

As the first BIS-certified jewellers in Tamil Nadu, Sree Kumaran Thangamaligai is a shopper's paradise for exquisitely crafted & imported jewellery. It is a fast emerging and a preferred destination for showcasing the finest designs that reflect the convergence of traditional collections to modern artistic jewellery.

VERTICALLY INTEGRATED

INFRASTRUCTURE

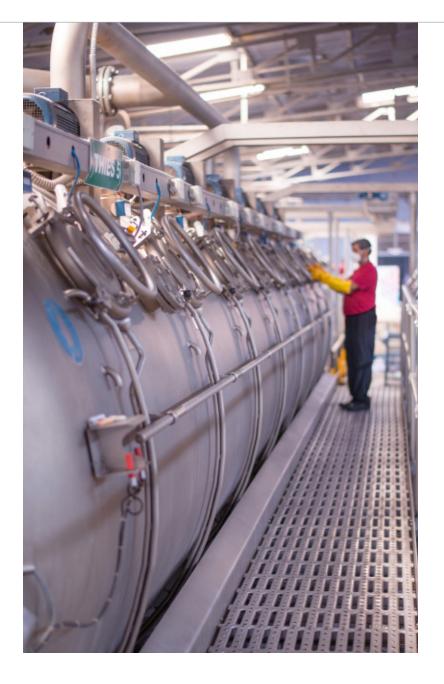

We continue to contribute our innovative ideas to the hosiery world through our technical expertise. Our company has always invested on hi-tech automated machineries that help us handle diverse orders. Our vertically integrated infrastructure with world-class machineries holds all the garment manufacturing processes and helps us produce premium fabrics for prestigious brands.

Spinning

The finest combed cotton yarn is produced from our spinning division. With 28 combing machines, 45 ring frames and 20 Auto Coner machinery, the spinning unit uses organic cotton to produce high-quality yarn.

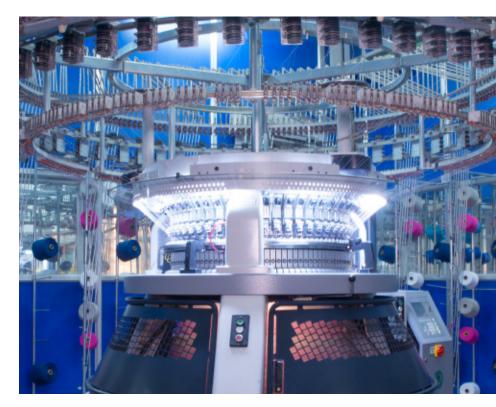

The state-of-the-art machinery helps in achieving superior quality organic cotton yarn from counts Ne 20's to Ne 60's. We also produce yarn blends from counts Ne 20's to Ne 50's.

Knitting

The hi-tech machineries from Germany and Italy help us creating Rib, Interlock and Fancy designs. Interlock, Drop Interlock and Auto Stripes are facilitated with highly-automated Spanish machines. Taiwanese machines for Rib and Wheel Jacquard with Lycra, Japanese Collar knitting machines to knit all types of flat knit collars and machines from Singapore for Jersey with three thread conversion.

Dyeing

Completely equipped with Reverse Osmosis feed tank, our dyeing plant at Erode recycles discharged water and make it suitable for irrigation, thereby justifying to our environment-friendly operations. It houses advanced machinery from Thies, Germany as well as HTHP machines for polyester dyeing, winch dyeing, Soft flow machines, drying machines and rotary printing.

STREAMLINED PROCESSING

Design Studio

We have hi-tech imported compacting machines from USA & Italy for both open-width and tubular fabrics. Taiwanese raising machines enable brushing on all varieties of fabrics wherein our suede division is supported with machines that are imported from Italy. Our in-house washing units feature recyclable water and multiple wash options like silicon/stone and enzyme, bio-polish, etc.

The contemporary design studio wherein the latest trends and techniques are deployed for garment design is equipped with the most up-to-date software that facilitates pattern making, 3D imaging, graphics and draping.

Cutting & Spreading

The latest Cutting Systems from the USA, with CAD, CAM, CAS, exclusive Plotting facilities and Band Knife Cutting Machines from Japan, Korea and Germany are the highlights of this division. Our automatic spreading machines enable the spreading of tubular, open-width and woven fabrics.

Finishing & Checking

Oil fired boilers provide steam at required temperatures for pressing and drying. For shirts and trousers, a separate pressing facility has been allocated. The garment is then completely checked for defects. Japanese Needle detector machines have been installed for 100% metal-free products.

Stitching

It is a process that requires a high degree of dexterity and astute precision. To ensure this, we have a team of skilled personnel who work towards stitching perfection with 6500 imported sewing machines. There are 40 production lines maintained as per the guidance of Kurt Salmon Associates, the renowned global Management Consultancy, which sets us apart.

Packing

Packing is done with the most meticulous attention. In-house stuffing is carried out with great care. Highest standards are complied with from expert packing to safe dispatch and delivery.

Value Addition

Our trendy print designs leave inspiring impression that comply

Printing

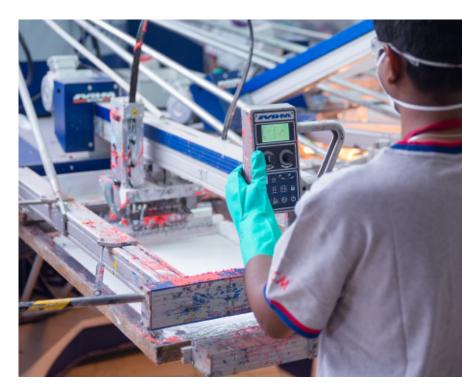

with the ever changing trends and needs of the customer. To offer a complete range of print options, we have installed state-of-the-art placement printing machines which facilitate various types of prints like reactive, discharge, pigment, plastisol, high density, flock, rubber etc.

Accessories

We have sophisticated equipment from Switzerland for manufacturing inner elastics for briefs, jog pants, shorts, etc. that ranges from 3mm to 60mm are produced using the machinery. We are also capable of making exquisite finishes based on requirement of the client.

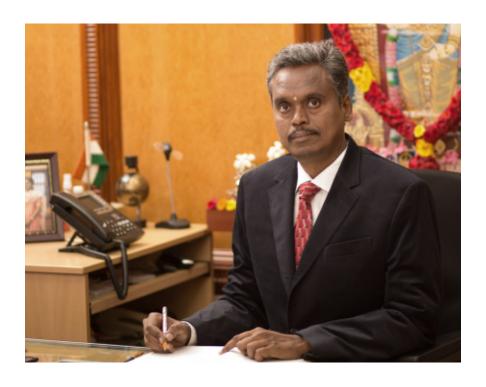

Embroidery

Enabling intricate designs, our embroidery division is housed with 24 imported machines from Germany, China & Japan. Equipped with 326 heads, these machines are capable of delivering nearly 11.1 million stitches per day.

SAVVY WORKFORCE

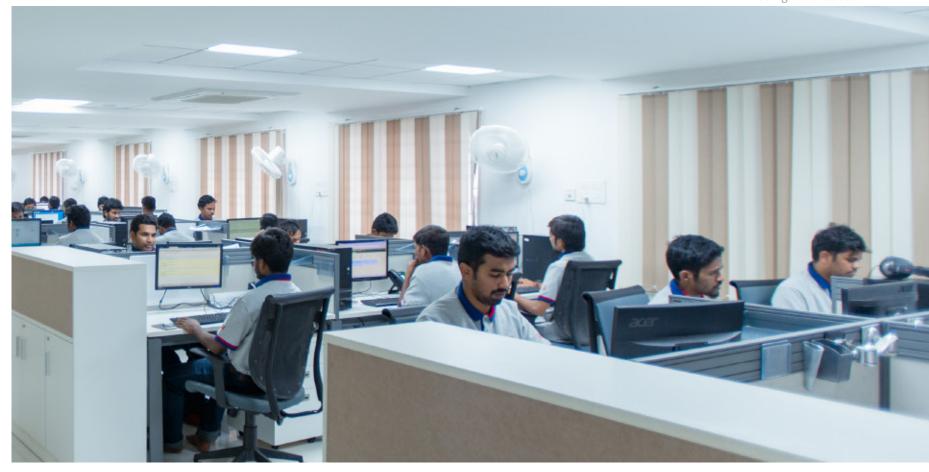

The Management

Being the extreme innovators and believers in game-changing businesses of the future, our management team is known for challenging conventional wisdom and spotting opportunities quickly. A leadership team personifying excellence and execution, they are never short of creating innovative next practices and generating exponential value – for the company, for the nation and for the people.

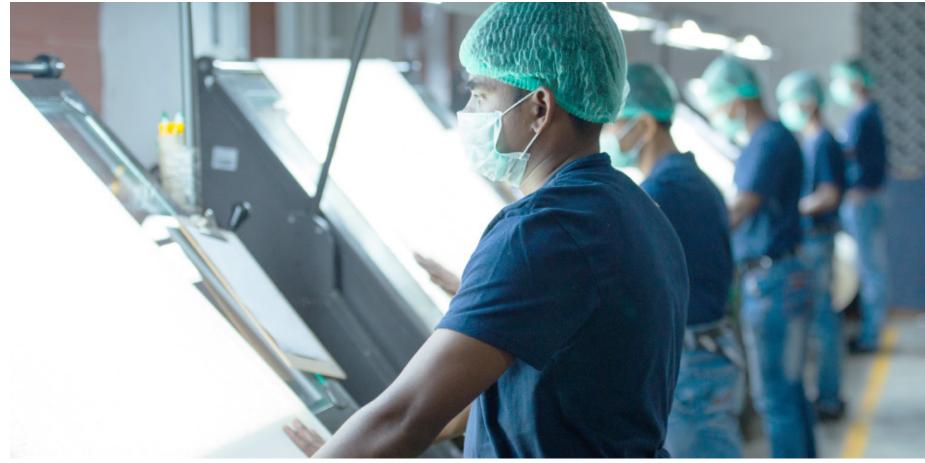

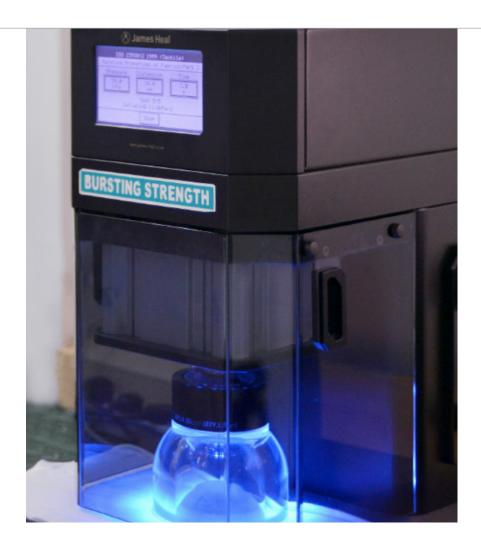

PARAMOUNT QUALITY

Quality is what we practice not just as an act but as a habit! We are passionate about achieving the highest standards of quality and always promote meritocracy. We have implemented AQL 2.5 Level Quality & Standards and developed a 4 point system to ensure every step of our manufacturing process passes rigorous norms. We commit ourselves to improve continuously and consistently providing our best to our clients, thereby manufacturing and delivering all the products with moral uprightness. As an evidence we have been recognised with various certifications.

- ISO 9001:2008
- Oeko TEX Class 1 & 2
- GOTS Certification for Organic Textile standard
- WRAP accreditation and Organic Content Standard (OCS)
- NABL for Chemical Testing & Mechanical Testing

TOWARDS A NEW TOMORROW!

We believe in the importance of social stewardship. We embrace our responsibility in the community where we exist to present a better tomorrow through our planet friendly operations. We have undertaken to plant, grow and take care of 10,000 trees for a project named "Vanathukul Tirupur" ensuring a greener tomorrow.

Corporate Social Responsibility

We create opportunities for the underprivileged and endeavor to fabricate a more impartial society, through support for programs in the areas of education, healthcare and rural development. To contribute to society by investing in meaningful activities we are continuously involved in eco-friendly initiatives to manufacture fabrics and clothing of world-class quality.

Employee Welfare Programs

At SCM Garments, we have garnered enough experience to make safety and health a priority in the workplace and improved occupational safety and health significantly. As a way of expressing true care towards our employees, we provide them with transportation facilities, comprehensive health care, and education opportunities. There are also regular yoga classes organised to help them work with peace, harmony and balance.

OUR FLAGSHIP PRODUCTS

Our expertise lies in developing products from 'Concept to Fruition' and beyond. Our constant focus on innovation has helped us to emerge as a trendsetter in garment industry & be known worldwide for our unbeatable range of products.
